the city of Victoria, Kowloom and the Peak with the ELECTRIC | TOHT. A subsidiary object is the supply of electric motor power wherever it may be required, and negotiations are now being carried on with the Government to supply the necessary power for pumping water from the Albany Tank to a reservoir or tank to be established at

the Peak. The advantages of the Electric Light are so well recognised that but little need be said on the subject. It is, however, peculiarly adapted for use here on account of its being almost entirely free from heat and unaffected by wind, and also on account of its almost perfect freedom from danger

Estimates of working expenses, cost of supply, &c., have been carefully gone into, and the Directors have no doubt that the light can be supplied at rates which will compare favourably with the price paid for gas in the Colony, while for quality, power and convenience, the light will be much superior to any other kind of lighting.

In the estimates are included cost of sufficient engine power, plant, &c., for Electric Street lighting on the well known Arc System. Negotiations, with a good prospect of success, are being carried on with the Government for a contract for this purpose. A very suitable site for the Engine house required for the Machinery has been purchased and will be made over to the Com-

pany at cost price. It is proposed to order from England at once the necessary plant and dynamos on the latest and most approved principle adopted in England and America. The London Electric Supply Company are at present engaged in installing in London a plant to supply 250,000 lights on this

The Income will of course depend much on the number of lights supplied, but as the price will be, light for light, less than gas, there can be no doubt that the electric light will be generally adopted. If but 3,000 burners are made use of, it is believed that the Company will be able to pay a satisfactory dividend, and the dividend will increase with the increase in the demand

for the light. The value of the shares has been fixed at 210 with the view of bringing the shares within the reach of all of the community who are likely to use the light, and who will thus have a better opportunity of becoming shareholders than if the shares were of a higher value. It is intended that as wide a distribution of the shares shall be made as possible.

No promotion money will be paid. For prospectus and for forms of application for shares, apply to the HONGKONG AND SHANGHAL

83 Mn Wodehouse held an inquiry at the Magistracy to-day into the circumstances connected with the death of Kwok Yat Fai, a billiard-marker employed at the Deven, second son of John Smith Brains, Hongkong Club, who was found drowned on Monday morning. James J. Clerihew. Inspector of Nuisances, said : About 6.10 on the morning of 28th Jan., I had occasion to go to the Salyingpun Nullah. At the mouth of the Nullah I found the dead body of a Chinaman lying face down. He was fully dressed. The water was only about five or six inches deep where he was lying. The whole length of the body was in the water. which was just awash with his back. I quantity of rubbish was floating above the body, and it was on removing this that the body was discovered. The only mark about the body was a slight bruise on the nose.-Ohun Sun Hing said : I am a billiard-marker employed at the Hongkong Club. The deceased was also a billiard. marker there for more than a year. I last saw him at six o'clock on the evening of the 27th, in the Club. There appeared to be nothing wrong with him then. He lived at the Club. He did not sleep there that night. I went to the bowling-alley where he slept, to put out the lights at twelve o'clock, and he was not there. - Kwok Yat Sam said: I was once employed as bartender in the Hongkong Club. Deceased was my cousin. He was married; his wife lives in the country. I don't know any reason why he should have gone down to Salyingpun that night. - Inspector Mackie said: I am in charge of this case. The Nullah in question is near my station. I have made inquiries into the case. I am not aware of any suspicious circumstances. I saw the body when it was being examined by Dr Marques. markably good shooting which was made. The competition was for the usual Challenge Cup, which was supplemented on this cocasion by a second prize, presented by Major Tripp. The corps mustered to the number of 35. Major Tripp was in command, and the other officers were Captain McCallum. Lieut, Woolley, Lieut, Holmes, and Lieut, Denson. On arriving at Stonecutters' Island the corps was formed into two detachments, each being allotted one gun. The practice was with 64-pounders, and of Liberals. In the opinion of military observers no practice of equal excellence has ever been seen here, and it is believed there was not a shot fired yesterday that would have failed to hit had a ship been the object fired at. The damage done to the target being quite beyond what was expected and what was provided for, a good deal of delay occurred in renewing it so frequently, and latterly the competitors had to be contented with the barrel elone as a mark. A number of visitors, including some ladies, witnessed the shooting. most extravagant desire for this species of tomfoolery, but there are plways a considerable number who fail to get done with it within that time. This year the Police have been trying as far as they can to get hold of the offenders, a thing which, as may be imagined, is not easily done; and the fact that considerably over two hundred summonsus for illegal cracker-firing were applied for this morning shows how general the offence is. It is a pity, however, that the Police did not consider it their duty to deal as rigorously with another infringement of the regulations of a still more reprehensive kind, which was committed with impunity on Wednesday night. A number of boys, some of them English and some Portuguese, amused themselves at the Chinese fair in Jervois Street on that occasion by throwing crackers among the stalls, causing a good deal of positive danger as well as annoyance to the crowd of people in the street. It would have been easy enough for the Police to lay their hands on the scamps who were guilty of this exhibition of juvenile rowdyism, and their not doing so can only be accounted for on the assumption that they were deterred by the fact that the offenders were not Chinese. It is a mistake on the part of the Police to allow a consi deration of that kind to interfere with the performance of what is clearly their duty. The hundreds of Chinese who crowded the streets were perfectly orderly, and the behaviour of the young rowdies referred to, not only in the matter of cracker-firing but in several other respects, made a very unfavourable contrast.

ONE of the largest confingrations which have occurred in Rangoon for some time past broke out at an early hour on the 6th January. Soon after midnight an alarm was raised by some Burmans residing in 19th Street noticing flames issuing from one of the houses. Aided by a strong breeze from the river, the flames increased. till it became evident that the combined efforts of the firemen to save the block of buildings between 19th Street and Latter Street would prove futile. Before it was suppressed the premises of the Burma Herald Press were entirely gutted out. The loss is estimated at from 5 to 6 lakes of Rupees, which will fall heavily on the Chinese and Burmese inhabitants of the town; the whole property, with the exception of two or three houses, being uninsured. - Ranguon Times.

THE Japan Gazette of 24th ult. says:—In our last night's issue we called from the China Mail a report referring to a Mr R. C. Passmore, recently chief officer of the Pingchin; and Kai-pan, who endeavoured to slip away from his creditors in Hongkong by the Caledonien. Foiled in that attempt, he however managed to get off by the Abussinia, en route for Europe, under the alias of Mr Nugent. Just before the Abysinia's time for departure a constable from the English Copsulate boarded the boat with a warrant for the detention of Mr Passmore, alias Rogers, alias Nugent, and although given every assistance by the captain and officers of the ship he was unable to discover the object of his search. DEATH OF CAPTAIN DE FAUCON

OF THE S.S. DJEMNAH. uary says :- The M. M. steamer Djemnah arrived at her wharf shortly after three o'clock yesterday afternoon. Her flags were at half-mest out of respect to the memory of Captain de Faucon, her commander, who was found dead in his bed on Sunday morning, the second day after leaving Colombo. Captain de Faucon had been suffering from heart is said to have been much affected by the death passenger on board the ship, ten days previous to his own. This passenger, Mr van den Bossche, a Duich gentleman, died from heart disease and was buried at sea. On Saturday evening Captain de Faucon retired to his room as usual after having given orders for an inspection of the crew to be held on Sunday morning. As he was not on deck at his usual time and the men were all ready at their stations, the Commissaire went to call him and found him quite dead in his bed. M. Charvay, chief officer of the steamer, at once informed the passengers and took command. The body of Captain de Faucon was encased in a leaden coffin, enclosed in a wooden one, and kept for burial until the steamer's i arrival at Singapore. Deceased about forty-five years of

> LAROUGHERE'S WEEKLY CHAT FROM LONDON. London, January 1 .- There are over 1,0 0,000 girls in England who are not likely to get married. In order to ramely girls should be allowed to propose-in fact. that courting and proposing should henceforward be a business appertaining to both sexes. There are a number of young men who are shy. They have a vague general idea of marriage, yet cannot screw their e arage to the sticking point. These, were the road to matrimony made easy for them, would succumb. If, in addition to this, p reats have the sense to leave their daughters equal portions with their sons, and let their intentions be known, they would demned to a single life.

Liurence Oliphant, who was buried last week at Twickenham, was one of the most charming companions possible to conceive. He seldom intruded his strange religious theories on his friends.
